This report is a big-picture detailed overview of the Bible for what God has planned for man to know and relate to Him and how the endtimes unfold. It shows how God planned history to bring responding man to a mature high-skill spiritual ability in Christ-likeness in relationship living patterned after the Son's walk with the Father. This spiritual ability is needed in eternity to know and relate to God the Father in His depth-breadth in holy and righteous living - the perfect life in His Greatness. Apart from this life with God, there is nothing. If we want God's best, we need to pursue maturity in Christ as God commands with excellence and commitment.

As part of His Plan, this report shows the spiritual warfare strategies, how Revelation's events unfold, what must occur before the Tribulation can come, what is the current Jewish situation, what the Cross accomplished in addition to Justification, and what must happen before the Rapture can occur. The events of Revelation's seven-sealed scroll is how Christ wins back the Earth's Title Deed from Satan. When this happens, the heavenly court after the Tribulation awards Christ the legal authority, according to God's Plan, to rapture the Church and bring the resurrections and the final judgments.

REPORT ORGANIZATION: The main report consists of a Preliminary Discussion, and Main Report. The Main Report presents: (1) God's Plan and objective for man,; (2) how His Plan is developed over history with the spiritual warfare with the understanding of the Jewish situation after the Cross; (3) the main job of the Church to evangelize unbelievers and mature believers; (4) how our churches are now falling away; (5) how the endtimes unfold; and (6) what churches should do now with urgency. The many aspects of God's Plan for history were learned and developed from a detailed and integrated biblical study, examining over 40 doctrines (including inputs from the work of many others) and how they work together. **They, with God's Plan, are presented with the Scriptural development in the referenced documents listed at the report's end.** This report allows one to gain the overall perspective without the need first to read and integrate the many-many teachings from the many referenced reports with many-many more pages. ***I could only wish I had such a summary before I began my study.*** It helps one to grasp the many aspects involved. Seeing these many aspects all at the same time, helps one to avoid errors in Bible understanding and how endtimes prophecy unfolds. **(E.g. churches have over six different views of endtimes prophecy.)**

God allowed me to see many aspects of His Plan by first training me as a system engineer. Using this training, I worked to discover God's system and plan over history from Genesis to Revelation to develop Christ-likeness in man and how the endtimes unfold in the end phase of His Plan. It was a most intriguing and rewarding study. But it took time because of the many aspects involved and the need to compare Scripture with Scripture - like seeing the many facets of a diamond.

DISCLAIMER: This report presents our view of the Bible and what God intends for us. You are invited to study on your own to reach your own conclusions and pray for what God would have you do. We cannot be responsible for what you do or do not do. We have attempted to point the pathway to have God's intended best and, in our view, share for how the endtimes will unfold. This report is meant to come along side, bring added value, and encourage you to seek God's best, train, and prepare. None of us have complete information. But we can help each other.

Report Purpose: This report's purpose is to present God's Plan over history (The Biblical Worldview from Genesis to Revelation) in one document so that readers can know and to adopt to His Plan. This is to gain a maximum maturity in Christ-likeness so that we can know, relate to, and fellowship with God in His Greatness, living perfect lives amidst His great Glory forever. **This single document of an overview is so readers can grasp an overall comprehensive understanding without the need to read many-many documents with many-many more pages to learn and integrate the information needed to understand God's plan.**

Thus, this report presents God's Plan for becoming mature in Christ and the pathway to gain this maturity so that we can have the best that God has planned for us. It shows how all of Bible history leads to us becoming mature in Christ. This report also: (1) presents how the endtimes unfold and why; (2) presents that the endtimes Tribulation can come any time; and (3) encourages us to ensure that we and our children and youth have greater obedience and are prepared with provisions and maturity before it comes.

Target Audience: The report's target audience is Church and family leadership who are responsible for training others, those who want to go all the way with God, and those wanting to gain quickly a comprehensive overview of the entire Bible message.

God's Plan: God planned all of history to bring responding people to have salvation to go to heaven, and, very importantly afterward, to become mature in Christ so that one could know and relate to Him as the perfect God in His depth-breadth throughout eternity. He has extreme Greatness, and we have extreme spiritual poverty. One becomes mature by learning to live as Christ lived with everything coming from God the Father and without our taking any independent action. It is when every thought and action comes from God as a source in all parts of our life. It comes when we cooperate with God such that He, not us, work all things together for our good. For this to happen, we need to obey God's commandments from love and help accomplish His work from His purpose for us. As we do these, we glorify God.

Then when people see us, they will see God because we, from ourselves, we are doing nothing. Living with God in His absolute perfection, is all there is and brings a perfect life. The measure of our maturity, only by God, is how we respond to the leading of God in every aspect of life in comparison to how Christ, being perfect, would respond, if He were to act in our place. Apart from this eternal relationship with God with maturity in Christ-likeness, there is nothing.

God's Commands and Spiritual Warfare: God commands us to become mature without telling us whether or not our maturity can increase in heaven (whether it may be fixed forever at death). He has left it as a matter of faith. But there are many biblical indicators that this life time may be

Short Summary of the Main Comprehensive Overview Report

the only time that God has given for us to gain maturity. This is true even though we will gain much more information in heaven. But our ability to handle it may depend upon the maturity we have at death. Because of its importance to know and relate to God, we should obey God and pursue maturity with excellence and commitment for whatever reason He may have. He may use our maturity in different ways than we can know now.

God established a spiritual warfare between Christ and Satan to bring the testing and developing environment by which we can gain this maturity. Christ works to have the elect believe and to accomplish God's work by the completion of the Church Age. Satan works to prevent this result. If all the elect believe and also accomplish all of God's work, then Christ wins the warfare. This will happen. Satan works now to transform the Church to become immature with a loss of biblical intellect with a low plateau of Bible knowledge. He does this by deceiving the Church to dumb down her training and to use rock type music to draw the youth.

From the Beginning and Periods of History: Since the sin of Adam and Eve, all people are born in the Dominion of Satan under His eternal control with sin natures that do not seek after God and cannot become mature in Christ. They are born under God's condemnation for sin and if nothing happens, they will go eternally to the Lake of Fire for God to satisfy His Justice for sin. Generally, there are three periods of history, each lasting about 2000 years. They are: (1) The Gentile Period that brought fair rules of the spiritual warfare; (2) The Jewish Period that brought items that led to Christ and His Cross; and (3) The Church Period that took the Gospel and Bible teaching to the entire world and brought the termination of history.

What the Cross Accomplished: Christ died on the Cross satisfying God's Justice for our sin on our behalf. When one believes this according to only the Bible as God works in Him, God's condemnation for sin is removed. One is transferred into the Kingdom of God under Christ's eternal control. One becomes part of the Church. One receives a new divine nature that cannot sin and is used by God for people to pursue Him and to become mature in Christ. The believer also retains the depraved nature and sins when he uses it. He then confesses His sin and Christ's blood cleanses the sin.

The Cross brought all believers to be one in Christ without ethnic division with only Christ now having preeminence. It put aside the Jewish worship system forever. The Church is now the sanctuary of God as a living sacrifice, and holy nation. Returning physical temples and animal sacrifices would deny Christianity and the efficaciousness of the Cross. God divorced National Israel as of the Cross because she broke the everlasting covenant of the land by her great disobedience, not willing to return to God. Christ is now marrying the Church. He cannot have two wives at the same time. God has not forsaken the Jewish people in any way. Believers of Israel can have all that God has planned for everyone by first becoming a Christian to go to heaven and then by becoming mature in Christ to know and relate to God.

Job of the Church: The primary job of the Church is to mature her own committed people in Christ. Her secondary job is to work with the less committed and to reach new people, the lost, and the youth. Many churches are now acting with inverse priority.

Churches are to train their people to worship and glorify God, live godly lives patterned after Christ's walk with the Father, become involved in ministry, and to stand strong on the Christian-Faith Doctrines. They can train in depth-breadth with: (1) Christian-Faith Doctrines; (2) God's Plan for history with the spiritual warfare and endtimes prophecy; and (3) Christian-Life

Short Summary of the Main Comprehensive Overview Report

Relationship Principles to include the above requirements. We need to have an in depth-breadth curriculum that contains the what to's and the how to's. We need some on-the-job training. We need to train to see sermons walking - lived out.

Revelation: We have over six views for how the endtimes unfold. To bring resolution and find the biblical view, we studied God's Plan for history with the spiritual warfare and placed prophecy in as the end phase of His plan. We found (sdiscovered) that Revelation's events unfold in a special sequence like what happened to the Old Testament Jews. There is a favored nation. There is great blessing when the nation obeys God. There is warning in disobedience. Then God, using Satan, brings a world government against the nation in her continued disobedience and places her in a period of divine discipline. This is followed by deliverance to God after the discipline period, followed by the destruction of the world government. In these endtimes, the United States is the favored nation. She is being warned of her sin and of the impending of the endtimes Tribulation that brings divine discipline period for sin. After the Tribulation, the heavenly court determines that Christ has won the spiritual warfare. It awards Him the legal authority to bring the resurrections and endtime judgments. Christ now raptures the Church at the marriage of the Lamb and then destroys the remaining unbelievers. Now all go their eternal states.

The Endtimes: *This report brings a Watchman Warning.* Signs now signal that the calamity bringing the endtimes Tribulation with world government can come at any time. There will be war over one fourth of the world, bringing famine and the plague. Our churches by the thousands are now falling away by not adequately teaching God's Word to mature their people (especially the children and youth) and not adequately doing local evangelism, particularly the children., They are bringing in the world's rock type music. There is abortion, homosexuality, and wrong divorce. These actions are symptoms of not appreciating God's Greatness, not working with eternity in mind, not understanding they are implementing satanic strategy, and not doing critical analysis to observe the trends and how well they are obeying God. They are choosing their own way. Our churches are now becoming immature with a loss of biblical intellect and with a low plateau of biblical knowledge. Church leadership carries the major responsibility. Our public schools are also dumbing down their education. This is Satan's strategy to bring socialism when our church and public youth will not be able to do critical analysis to determine what is happening. The sin in the United States is greatly increasing. Judgment Is coming on the nation and on the Church.

When the Tribulation, with world government, comes, our freedoms will be taken away. The government will make war with the Church, martyr many believers, and satanically indoctrinate our children. Property will be confiscated, there will be a new financial system, and non producers will be warred against. There will be a world religion. There is much more.

What We Should Do: Churches and families should now put in some supplies to get through the calamity. ***They should do self evaluation and come to much greater obedience, working for revival.*** They should take urgent action to mature their people, especially their children and their youth. They should join with others in mutual support small groups. They can train in these groups. ***However, be warned that if one waits for definitive information about the Tribulation's timing before they act, that will never come, one will be caught blind sided, unprepared, and untrained.*** One must act on the warning signs and existing conditions to do completely what God commands for all time periods.
